

tartrate of potash, lysoform, naphthol, nitro-benzol, paraldehyde, pepsine, phosphorus, resorcin, saccharin, veronal, etc., etc.

3. Pyrolea.

4. Vegetabilium variæ species:

[A long list is specified under this head.]

(c) Medicaminum variæ species;

[The list specified under this head includes, *inter alia*, serums.]

SCHEDULE B contains a list of drugs, etc., which may be sold by chemists and also by specially licensed tradesmen. It covers the following:—

Aloes.

Ammonium bromide; ammonium iodide.

Antimony trichloride; butter of antimony; oxide of antimony; tartar of emetic, antimony tartrate.

Barium bromide; barium iodide; barium chlorate, chloric and barytes; barium hydrate (caustic baryta).

Benzoinform.

Bromine.

Cadmium bromide; cadmium iodide.

Calcium bromide; calcium iodide.

Carbon disulphide.

Copper acetate, verdigris; copper nitrate.

Cobalt chloride.

Chromic acid.

Potassium bromide; potassium iodide; potassium iodate; potassium oxalate (neutral and acid); potassium perchlorate; caustic potash, potassium hydrate (in containers of less than 40 kilog.); [See also under Potassium salts on page 186.]

Caustic lithia (lithium hydrate).

Sodium bromide; sodium iodide; sodium oxalate; caustic soda, sodium hydrate (in containers of less than 40 kilog.)

Hydrofluoric acid.

Iron oxalate, ferrous oxalate.

Iodine.

Lead oxide, sugar of lead; lead nitrate.

Oxalic acid.

Phosphorus, amorphous, red phosphorus.

Pyridine.

Strontium bromide; strontium iodate.

Liver of sulphur.

Zinc chloride.

[SCHEDULE C relates to goods which may be sold practically without restriction. The following articles from Schedule C have been prohibited to be exported, and are included specifically in the list on pages 182-187, *viz.*, absolute alcohol, citric acid and its salts, tartaric acid and its salts, collodion, chemically pure hydrochloric acid, chemically pure sulphuric acid, lactose (sugar of milk), formaldehyde solution and other formaldehyde preparations, balsam of Peru, wool-fat (all kinds), vaseline and vaseline oil].

SWEDEN.

LIST OF ARTICLES THE EXPORT OF WHICH IS PROHIBITED.

December 22, 1915.

NOTES.

(1) A Swedish Royal Decree of the 9th January 1915, definitively prohibited the transit through Sweden of arms, ammunition, and other war material, as specified in the decree.

The Swedish Government issued on the 4th May 1915, a decree which had the effect of extending the operation of the Swedish prohibitions of export to all goods in transit between the United Kingdom and Russia, which are on the Swedish export prohibition list. Since the 16th August 1915, this prohibition of transit has been applied also to goods sent through Sweden by parcel post.

(2) As from the 22nd April 1915, the export is prohibited of goods with regard to which no special prohibition of export has been enforced, but which are manufactured wholly or in part from materials of which the exportation is prohibited, if it appears from the quantity of the material employed or from some other circumstance, that the working-up to which the material has been subjected is merely intended to facilitate the exportation of the prohibited materials of which the goods consist.

(3) Goods of which the exportation is prohibited may be shipped between Swedish ports subject to the observance of certain regulations established by a Proclamation of the 16th February 1915 (as amended by Proclamations of the 14th May, 14th June, and 9th July).

(4) The numbers and letters quoted below relate to the headings of the "Statistical Index of Goods" under which the prohibited articles fall.

The numbers are the same as those of the Swedish Customs Tariff*; the letters indicate the sub-divisions of the numbers, and are found only in the "Statistical Index"—which is considerably more detailed in classification than the Customs Tariff.

- ex 1258 Acetylsalicylic acid. [See under Druggists' wares.]
- Acids.—See under the respective headings, viz.,—Acetylsalicylic, Carbolic, Citric, Hydrobromic and hydroiodic, Salicylic, Sulphuric, Tannic, Tartaric and (for fatty acids) under headings for Oils, vegetable, fatty and Olein, etc.
- ex 1258 Adrenaline and salts and preparations thereof. [See under Druggists' wares.]
- ex 1250 Agar-agar.
- 114 A Albumen. (See also under Eggs.)
- 1196 Alizarine and aniline dyes and other tar colours, not specially mentioned in the Statistical Index. (See also Indigo, Synthetic, and under Aniline and Tar colours.)
- 114 A and B Almonds, whether shelled or not.
- ex 1258 Aloes. [See under Druggists' wares.]
- ex 953† Aluminium and certain wares thereof (see under copper).
- ex 1258 Alypin. [See under Druggists' wares.]
- 1152; 1153 C Ammonium nitrate; ammonium sulphate.
- 1196 Aniline and alizarine dyes, and other tar colours, not specially mentioned in the Statistical Index. (See also Indigo Synthetic.)
- 1197 Aniline (aniline oil), naphthol, naphthylamine and paranitraniline and salts thereof.
- Animals, living (see under Cattle, Horses, Pigs).
- ex 1258 Antifebrine. [See under Druggists' wares.]
- ex 1176, E Anthracene oil.
- ex 953† Antimony, unmanufactured or in the rough, also scrap.
- ex 1258 Antipyrine (phenyldimethylic pyrazolone). [See under Druggists' wares.]
- Arachides and arachides cake (see under Oilcake); arachides oil (see under Oils, vegetable, fatty).
- ex 1258 Arecoline and its salts. [See under Druggists' wares.]
- Arms (see under War Materials and Weapons).
- Articles of sheet iron (see iron sheets).
- ex 1258 Atropine and its salts. [See under Druggists' wares.]
- ex 56 B Bacon, pork, etc. (flask), American, salted.
- Balata, unworked (see under Rubber).
- Balsam of Peru (see under Resins).
- Bandaging articles, with the exception of cellulose wadding, bandage gauze, charpie, and preparations thereof.
- ex 764‡ Barbed wire.
- ex 232 A, ex 232, C† Bark—spruce bark, and other bark, not specially mentioned, used for tanning. (See also Chinchona bark and Sagrada bark.)
- Barley, barley meal, etc., (see under Cereals).
- 1068 Batteries, galvanic.

* No. 953 provides that aluminium, nickel, and metals not specially mentioned in the Index (alone or in compositions) are to be assimilated to copper. At present *aluminium* and *aluminium wares* of the kinds specified in Nos. 897-910 and 923 and 924 are prohibited to be exported *nickel* and *nickel wares* of the kinds specified in Nos. 897-903, 905-910 and 924 (*i.e.*, woven wire other than so-called wire gauze (endless) and other than wire tissue more than 1 metre wide) are prohibited; but *antimony*, and *chrome* are only prohibited if in the unmanufactured or rough state, or in scrap.

† 41 L [not prohibited] relates to unmanufactured retort carbon.

ex 953* metal, etc.; also aluminium, nickel, chrome, and antimony:—

897 A-E and ex F Unmanufactured or in the rough [including refined copper produced from raw material (not from scrap) at a Swedish refinery†.]

ex 897 G Anodes of copper, copper alloys and nickel cast, even with ears, with or without holes.

897 H Scrap.

Copper and alloys thereof with zinc, tin, or other non-precious metal, such as brass, bronze, German silver, Britannia metal, etc.; also aluminium, and nickel*—Manufactures, viz.:—Sheets and hoops:

Of a thickness of at least 0.2 mm.

898 and 899 Rolled or pressed, even if with sheared edges (rectangular, and other kinds).

900 Hammered, bent, bell-shaped, with turned-up edges, including cup-shaped materials for making cartridges, etc.; provided with holes, polished or otherwise worked, and not falling under No. 901.

901 Less than 0.2 mm. thick; also perforated sheets, including so-called strainer plates.

902 and 903 Rods (even if in bundles or coils), rolled, drawn, hammered or profile pressed, but not further worked, whatever be the shape of the section.

904 Solder, moulded, crushed, or granulated.

905 Nails and rivets; also bolts, wormed or not.

906 and 907 Pipes and tubes, whatever be the shape of the section, even if turned on the exterior and interior.

908—910 Wire, rolled or drawn, whatever be the shape of the section including so-called trolley wire (contact wire).

923 and 924 Woven wire (gauze, wire tissue, etc.).

Copper and alloys thereof with zinc, tin, and other non-precious metal, such as brass, bronze, German silver, Britannia metal, etc.:—

912 Wire twisted into cords or cables, not insulated.

913-914 Wire furnished with sheath of lead or other metal, with or without armouring, even if in combination with other materials; also electric cables or lines with similar sheaths, with or without armouring.

915-918 Wire insulated with rubber, gutta-percha, etc., even if in combination with other materials; also electric cables, lines, and cords insulated in this way.

919-920 Wire insulated with textile materials, paper, asbestos, or varnish, even if in combination with other materials; also electric cables, lines, and cords insulated in this way.

921 Wire, electric cables, lines, and cords, insulated in any other way.

DENMARK.

LIST OF ARTICLES THE EXPORTATION OF WHICH IS PROHIBITED.

December 22, 1915.

NOTES.

1. As regards goods in transit and transshipment goods (in the Copenhagen free port and all other Danish harbours), all such goods, if of a kind prohibited to be exported from Denmark, are covered by the prohibition unless they are on a through bill of lading to a port in a foreign (non-Danish) country.

The prohibition is therefore applicable in cases where the goods are either shipped to a Danish port "to order," or where the goods are redestined to another port than the one originally mentioned in the bill of lading (unless it is merely a question of redestination to another port in the same country).

(20928.)

2. According to an official notice published in the "Berlingske Tidende" of the 12th February, 1915, licenses to export granted by the Ministry of Justice are valid only for one month from the day on which the license was issued, unless other conditions are determined in the permit itself.
